PUFF PAD SOLUTIONS

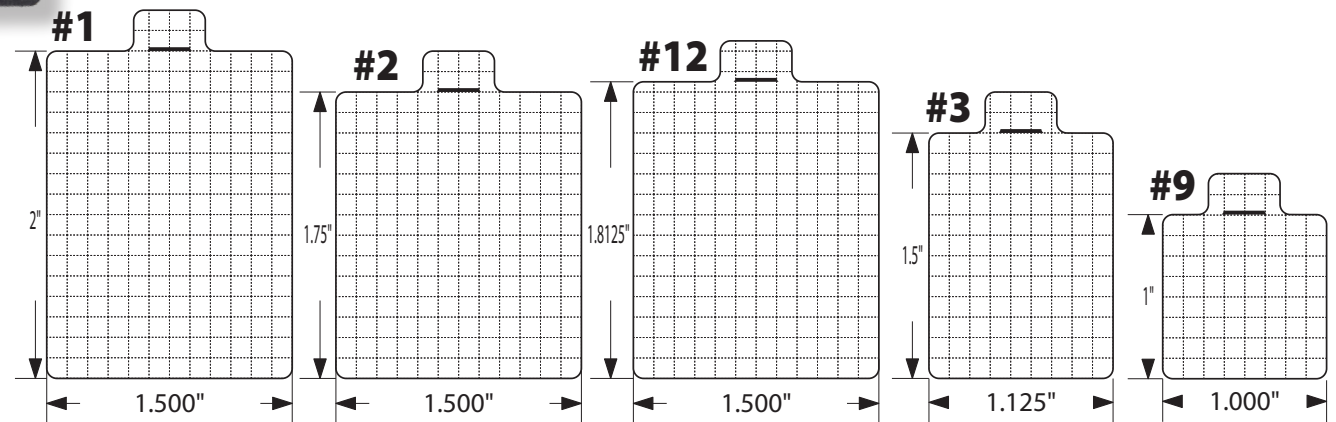

Puff Pad Solutions

With a significant increase in the amount of online purchasing, your jewelry presentation is now more important than ever and puff pads do just that. Puff pads offer a more luxurious look and feel to your jewelry products and enhances the quality and appeal to your customers.

Puff pads are simply cushioned jewelry cards with more dimension. As effective as they are inexpensive, puff pads have a raised surface which allows jewelry to be displayed securely. The extra padding helps to eliminate flopping or tipping, which can sometimes occur when using traditional carding.

Most Common Sizes

Custom Options

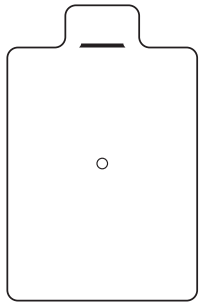

Puff pads are available in several colors and finishes, as well as flocked (rich, velour feel). They provide a more elegant look for both costume and fine jewelry types. They are perfect for carding earrings, necklaces, rings, pins, charms, ear cuffs, body jewelry, etc., and can be printed or hot stamped with a brand logo, material type, sizing, labeled for barcoding on back and more. We offer a large selection of punch designs and sizes.

A&H Worldwide is the leading producer of puff pads in the United States. We follow strict ISO 9001:2015 guidelines and use a completely automated manufacturing process which allows for exceptional quality and precise consistency with every puff pad we produce. A&H Worldwide also offers many different types of puff pad trays and inserts for beautiful countertop display.

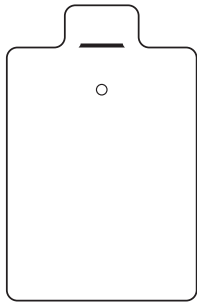

Make A&H Worldwide your one stop solution for all your packaging needs. Call today for more information.
