# Core Competencies

A&H Worldwide has been the global leader for imaginative design and innovative engineering solutions across a broad range of packaging products including display cards and tags, puff pads for fine jewelry, customized gift boxes in all shapes, sizes and materials, customized cards for hair, accessories and sunglasses, specialty gift packaging, coordinated/branded packaging, molded hangers for glasses, accessories, belts, footwear and leg wear, pressure sensitive and embossed foil labels, hang & string tags, as well as customized EAS & RFID loss prevention solutions for many types of products and a full range of ecommerce and eco-friendly packaging.

Our quality is unsurpassed and many of our customers have been doing business with us for more than thirty years. We consider that one of our greatest accomplishments! The A&H team specializes in design driven problem-solving, applying a blend of art and science to create the world's most beautiful, functional and successful packaging products. We also offer coordinated packaging programs designed to tell your brands story with multiple packaging options. We're not just a manufacturer...we're designers, engineers and marketers with decades of experience in helping you, sell your products.

The A&H team specializes in design driven problem-solving, applying a blend of art and science to create the world's most beautiful, functional and successful packaging products.

# EAS Molded/Sensored Tags

A&H Worldwide is the leader in molded hangers and tags for all types of products. Our durable, sensed hangers offer a simple, yet effective way to merchandise your product, all while keeping them safe from theft. Made from recycled polyethylene, our molded tags offer the strength and stability you need to merchandise your eyewear. We offer a variety of colors with your customized brand messaging, logo, bar coding, UPC, warnings, and more.

- Durable solutions with or without EAS sensor provide cost effective protection for all types of eyewear
- Side arm application allows consumer to try on without obstructed view
- Custom shapes and configurations available to fit your needs
- Molded of rigid plastic to prevent twisting or removal due to theft
- EAS label can be set in recessed channel
- Sleek hanger design provides vertical display capabilities

# EAS String/Hang Tags

Tags are one of the best ways to brand your product. We offer two types of tags - hang tags and string tags. Both are effective and can be customized with choice of color, material, brand messaging, logo, UPC, bar coding and can also include an embedded EAS sensor as an effective solution to prevent theft.

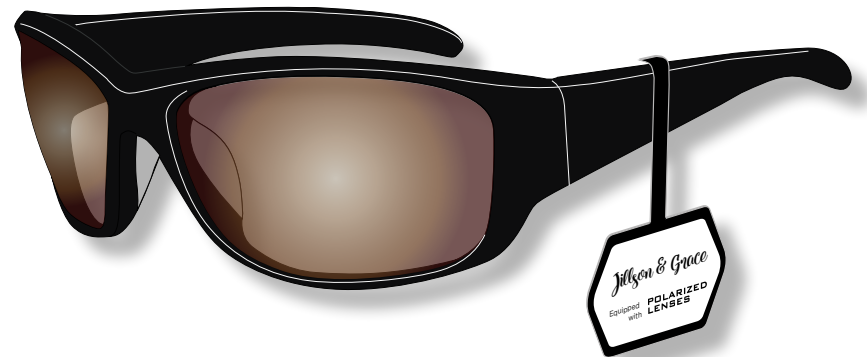

- Effective solutions with or without EAS sensor provide cost effective protection for all types of eyewear
- Side arm application allows consumer to try on without obstructed view
- Custom shapes and configurations available to fit your needs
- Large variety of materials, styles and colors
- EAS label can be hidden inside tag

# Sustainability

A&H Worldwide offers many alternative, sustainable materials to meet our customers' needs including recyclable and recycled paper, board, plastics, water based non-toxic inks and more. We offer innovative designs that reduce material requirements through package re-engineering and work with the most environmentally sound options available today. We are ISO 9001:2015, GMI, FSC, CONEG, SEDEX and RCS Certified.

In addition, A&H worldwide takes every opportunity to recycle, re-grind and re-use recyclable plastic materials and waste. Whenever possible, A&H sources materials from companies that share our commitment to sustainability.

We believe that the environment we thrive from should be cherished and protected for future generations. We are committed to ensuring that we do our part to protect our planet.
